## 1. Summary

Nuturey is an online platform that helps parents get organised in providing guidance and nurturing to their children - and be involved more efficiently and effectively in children's growth phase. The tool offers various modules that reflect not only everyday routine of children but also multiple dimensions of their growth, such as academic, health, physical, psychological etc

We aim to provide an effective platform to all those parents who believe that all aspects of a child's growth are important for a well rounded development of a child.

Requirements covered in this document are for the beta phase of the project. In this first phase, following broad level features will be covered.

- 1) Parents will be able to register themselves as the users.
- 2) Parents will then be able to create their families, and add members to them, which includes adding other parents and children.
- 3) Children will not have a login of their own in this phase.
- 4) Parents will maintain variety of information on their children

# Nuturey - Requirements Document

---

## 2. Module-1: Registration and sign-in.

- 1) When the user request to enter the website, check if the user is already signed-in (and email verified). If Signed in, directly go to the dashboard module.
- 2) If user doesn't sign-off, keep him signed in from a machine (is this a standard?).
- 3) Log user out from a different machine, if user logs-in from a different machine,
- 4) Default cursor will be in the username text box.

*Use some standard practices here.*

### 2.1 Functionality: Sign up

Field name	Type	Details
First name	Text Box	Only alphabet check Error: E01
Last name	Text Box	Only alphabet check Error: E01
Email	Text box	Valid email format Error: E02
Confirm email	Text box	Same as the email Error: E03
Password	Password Box	6-10 Characters Error: E04
Terms check box		Uncheck by default
Register	Button	Check if terms check box selected Error: E05 Focus on check box. Message just below the check box. If all OK, trigger the procedure "registration"

#### Procedure: Registration

- If all the data is valid, set-up the user with all details, status email 'unverified'.
- Send an email to the user.
- If email can't be sent or any other issue, throw M03 on the '*message screen*'.

# Nuturey - Requirements Document

M03: "Sorry, we are unable to process your request at the moment. Please try later." Provide with Back button.

- If all OK, give a message to the screen that email verification sent.

M04 - "An email has been sent to your email ID for verification. Kindly login again after verification."

## 2.2 Functionality: Login

### Refer to login screens in Appendix

Field name	Type	Details
User name	Text box <Enter email ID>	
Password	Password box	Pre-populate with password, if remember me was checked before on the same machine.
Remember password		Uncheck as default
Forgot password	Link	To <i>forgot password</i> screen Upon clicking this link email will be asked. - Upon submit, send the email to the user with a new password. - Send an email with new password. M02 - "An email has been sent to you with your new password." M05 - "Email not identified". This message should appear if email ID not registered.
Sign In	Button	Trigger procedure 'Sign in', in dashboard module, if the username password entries are correct.

### Procedure: Sign In

1) If username password is incorrect, go to exclusive **sign-in screen**. It will be a screen where only username/password will be asked, along with remember me box, forgot password link, and sign-up link.

A message will appear at the top in a box that username/password is incorrect.

M01- "Username and Password combination you entered is incorrect"

2) If user name password is correct, trigger procedure '**Family launch**' (to be covered in the next modules).

## Nuturey - Requirements Document

---

### Forgot password screen:

Field name	Type	Details
Message	Static text	This message will be populated when the screen is entered. M12  When the email is sent, change message. M02
Email	Text Box	
Send Password	Button	Generate new password and send to the primary email ID.
Cancel	Button	
Sign up?	Link	Take to the registration page

### Incorrect Login/ password screen:

Field name	Type	Details
Message	Static text	This message will be populated when the screen is entered. M01
Username	Text Box	
Password	Password Box	Generate new password and send to the primary email ID.
Sign in	Button	
Sign up?	Link	Take to the registration page

# Nuturey - Requirements Document

## 3. Module-2: Family set-up check

### 3.1 Procedure: Family launch

(This procedure is triggered when Sign In button is clicked with valid information)

- Every time user signs-in, check for following conditions:

Has the user got any families associated with him?

a) If no: Trigger procedure '**Family set-up**'

b) If yes: Trigger procedure '**Dashboard**'

### 3.2 Procedure: Family set-up.

**Family set-up:** (This is a pop-up window that come on the dashboard, as soon as the user signs in).

- User has two options. 1) To create his own family. or 2) To Associate with an existing family.

#### 1) Create new family section

Field name	Type	Details
Family ID	Static text	Pre-generated and blocked for action. - Generate a 10 digit number.
Family Name*	Text Box	Alphanumeric; 15 chars E04: "Valid characters only".
Your role*	Drop down (add it) <Select, Mother, Father, Grandparent>	E08: "Select a role" Role must be selected
Submit	Button	Above check on submit.  - Create a family with details entered. - Make the creator the primary owner of the Family.  - Trigger procedure " <b>dashboard</b> ".
Cancel	Button	Trigger " <b>dashboard</b> " procedure.

#### 2) Associate with an existing family section

Field name	Type	Details
Family ID	Text Box	User will enter the 10 digit number of the family.  Check for 10 digit number.  E06: "Family ID must be a 10 digit number"
Your role	Drop down (add it)	E08: "Select a role"

## Nuturey - Requirements Document

	<Select, Mother, Father, Grandparent>	Role must be selected.
Submit	Button	Above check on submit. E07: "Family ID not found"  If family ID found: - Email will be sent to the primary owner of the family for acceptance. - When owner accepts/ reject request, send email to the requester. - Update his family.  On the dashboard, a message will appear that email has been sent for approval. M06:  Trigger ' <b>dashboard</b> ' procedure.
Cancel	Button	Trigger ' <b>dashboard</b> ' procedure.

### 3.3 Procedure: Dashboard.

3.3.1 If *no family* associated (even for the time when the user waits for approval from primary owner):

- The dashboard's related section will remain empty.

Check for condition:

- If the user is waiting for an approval, **M06** message banner will appear.
  - If user is not waiting for any approval, a pop-up will guide him towards the navigation bar asking him to create a family. **P01**
- No member details or add member options will be visible.

3.3.2 If *at least one family ID* found for the user then:

1) Dashboard components:

a) User details:

- User name
- Last update details:

b) Navigation bar (this will be true for all screens)

# Nuturey - Requirements Document

- Red/ green dot: Indicating the activity level of the member. On dashboard page, it is the user. However, it will change with context. E.g. in the calendar page of a child A, this indicator will be that of the child A.
- Profile picture of the member: On dashboard page, it is picture of the user. However, it will change with context. E.g. in the calendar page of a child A, this picture will be that of the child A.
- Name of the member: Only the first name. On dashboard page, it is the user. However, it will change with context. E.g. in the calendar page of a child A, this name will be that of the child A.
- Screen name: On dashboard page, the label is "Dashboard". However, it will change with context. E.g. in the calendar page of a child A, this label will be "Calendar".

Following screens (names) will be available in the navigation bar.

Top level	2nd level	3rd Level (not to be visible in the navigation bar)
Parent	Dashboard	
	Calendar	
	Profile	General
		Occupational
		Financial
		Policies
		Diary
Child	Profile	General
		Milestones
		Interests
	Health	General
		Health issues
		Vaccination & Medications
		Tests & reports
		Conditions
	Mind	
	School	General
		School timetable
		Assignments
		Feedback
		Report cards
		Teachers
		Holidays
	Calendar	Calendar
		School Timetable
	Exams	
	Activities	
	A&H	
	Photos & Docs	

## 3.3 Navigation bar

### 3.3.1 Create family button

- Show create family pop-up.

# Nuturey - Requirements Document

Refer to 'Create new family section'

## 3.3.2 Delete family button

- All parents will have access to delete the family.
- When a family is deleted, all members and information and records will be deleted (in system, just mark it as inaccessible and invisible record, don't actually delete).
- Confirmation message will be asked.

M07.

## 3.3.3 Add new member

- Show add new member pop-up

Field name	Type	Details
Member role	Drop Down	<Select, Father, Mother, Son, Daughter, Grandparent>  E08 if not selected
Email	Text Box	Mandatory if the user is 'parent type' (Father, Mother, Grandparent).  In case of a child type, email is optional.  E04: "Valid characters only".
Confirm email	Text Box	E03
Salute	Remove	
First Name	Text Box	
Last Name	Text Box	
Submit	Button	All checks above.  If all OK, trigger procedure ' <b>Add member</b> '
Cancel	Button	Go back to the dashboard

## 3.3.4 Procedure: Add member

- Create the request in the system. Wait for the approval process below for full addition.
- If parent type, send an email to the user for verification. A message will appear in the dashboard that email sent. M08
  - a) The details will appear in the family, only after the person accepts the request. Send email to the requestor of acceptance or rejections.
  - b) If the email of the person is already registered, person will be added after verification. He will see following message when he verifies through email. M10.

## Nuturey - Requirements Document

---

c) If the email of the person is not registered, he will be taken to the registration page. In this case, the registration process will identify the pending acceptance, and directly associate the user to the family.

- If child type, member will be added immediately. M09 will appear in the message box.

### 3.3 Child sub-dashboard

- One dashboard each for each child in all families.

- Picture of child

- First name of child

- Age of child

#### d) Parent messages

- Alert with <number> of messages.

- This will show inbox and sent items with delete scroll features.

#### e) Parent upcoming activities.

- List of activities upcoming for parents.

#### f) Calendar for parents

# Nuturey - Requirements Document

## 4. Module-3: Profiles (Parent and Child)

### 4.1 General (Child)

# Nuturey - Requirements Document

## 5. Module-4: Child Health

### 5.1 General Health parameters

Most relevant parameters

1) The system will pick the list (and order) of most important parameters from the database, based on the age of the child.

Title	Text Box or Drop Down	
-------	-----------------------	--

Other parameters

1) The system will pick the list (and order) of other parameters from the database, based on the age of the child.

Title	Text Box or Drop Down	
-------	-----------------------	--

Old parameters

1) These parameters were updated in the past, but are no longer relevant. But are available for the user to be seen. The system will pick the list (and order) of non-relevant parameters that were updated in the past from the database, based on the age of the child.

Title	Text Box or Drop Down	
-------	-----------------------	--

Current set:

Height (cm)	Number Box
Weight (Kg)	Number Box
BMI	Number Box
Body fat (%)	Number Box , Check that less than 100%
Waist (cm)	Number Box
Head Circumference (in cm)	Number Box
Blood Group	Drop Down <B, B+, B-, O, O->
Left eye	Drop down <Select, +, ->, Number Box
Right Eye	Drop down <Select, +, ->, Number Box

- Each item also has a last updated date, which is also visible when hover over it.

- The coloured indicator, in front of the parameter, will represent that the update is due. Update due date will be determined by the update frequency also from the database.

# Nuturey - Requirements Document

## 5.2 Health Issues

1) Sort latest one (start date) first.

### General health issues

Health Issues*	Drop Down	<Select, Cold, Ear infection, Fever, Chicken Pox, Measles, Stomach infection>
Start date*	Date	
End Date	Date	
Description	Text Box	

- Upon clicking the Health issue, box should expand to show full description.

### Injuries

Injury*	Drop Down	<Select, bone fracture, Hairline fracture, Skin cut>
Injury date*	Date	
Healing date	Date	
Description	Text Box	

- Upon clicking the Injury, box should expand to show full description.

### Conditions and Major illnesses:

Illness*	Drop Down	<Asthma, Cancer, Heart issues>
Diagnose date*	Date	
Cure date	Date	
Description	Text Box	

- Upon clicking the Injury, box should expand to show full description.

## 5.3 Tests and Reports

### Green Bar

1) Need a drop down selector with values <Upcoming, Past>.

- Upcoming listing will be soonest due first.

- Past listing: Latest one due first.

### Columns:

- On clicking Title, expand box to show full Description

- On Delete, Delete prompt.

- Clicking anywhere else on the row will open the edit mode.

Del Box	Del Box	
Title*

Date Finalised	Check Box, Default Yes.	
From	Drop Down	<Select, Doctor, Mid-wife, Self, School, Other>
Parent responsible	Drop down	<default to self name, other names> Mark parent calendar
Reminder	Drop Down	<1 hour, 1day, 1 week>  Reminder message to the parent.

# Nuturey - Requirements Document

## 6 Module-5: School

### 6.1 General profile

- 1) Add new school will turn all fields to Edit.
- 2) Please add one line in the beginning with 'start date' and 'end date', with date picker (only Month and Year). Another check box saying 'present school'. If checked, end date should fade
- 3) Delete school will delete all classes/ subjects with the school.
- 4) School drop down will always default to current school, if no school, it will say, 'please add school'. Drop down will show all previous schools in order (Latest first).
- 5) **Class will follow same logic as school.** The name of the class will be 'Class name + : + School name. All schools and classes will appear in the drop down. And any selection change will also change the school at the top, if appropriate.
- 6) Just like for school, need 'start' to 'end' date for class as well, with present class check box.
- 7) Delete class will delete class and subject references (not school).

#### School

Tenure; Current school	Check box	Only one current school allowed.  Default this to check, if no current school already exist. If a current school is present, this should be unchecked and greyed out.  If selected, end date should be greyed out and un-selectable.  If unchecked, end date should be selectable again. Also look for current class under this school and make it to 'non-current' defaulting the end date to current date.
Tenure; Start date	Date (moth & Year)	
Tenure; End Date	Date (moth & Year)	Same line as start date. If current school is not selected, this field is mandatory. Throw an error when save button is clicked. E09
Country	Drop down	Options same as in address.
State	Drop down	Options same as in address.
City	Drop down	Options same as in address.
School name	Automatic text	Fill the school details as user type, but let him select his own name as well.  Automatic search will take into account the Country, city details.
Enrolment number	Text Box	
Board	Drop down	Board: Drop down <Select, CBSE, ICSE, UP, MP>

## Nuturey - Requirements Document

House	Text Box

## 8. Module-7: Calendar

### 8.1 Month view

- 1) Most of the top content will remain same, except:
    - Month Scroller will come.
    - Create New will have following option: Activity, Exam, Assignment, Holiday
  - 2) Background of all days which are holidays will be light grey
  - 3) If a day has an Exam or Assignment their icons will appear.
  - 4) The order of items will be like this:
    - Exam name
    - Assignment name
    - Holiday name
    - All day activity
    - Rest of the activities (this will include the sub-level exams)
    - + X items (the pop up will have all items)
- Maximum of four lines in the grid box.
- 5) Clicking on the date (number) will take to the day view of that date.

### 8.2 Week view

- 1) Top structure will be same as the month view.
- 2) Background of all days which are holidays will be light grey
- 3) If a day has an Exam or Assignment their icons will appear.
- 4) The order of items will be like this:
  - Exam name
  - Assignment name
  - Holiday name
  - All day activity

# Nuturey - Requirements Document

---

These will appear before the time starts.

- Rest of the activities (this will include the sub-level exams) will appear in the time slot.

5) Time will start from 5:00am in the day. A scroller is required to go before and after this. A line will separate all day type entries, with the time linked entries.

6) **If any slot has more items than ??**

5) Clicking on the date (number) will take to the day view of that date.

## 8.3 Day view

1) This will behave same as Week view.

2) A calendar will also be present on left side. which will highlight the current date and the selected date.

# Nuturey - Requirements Document

## 9. Module-8: Settings

### 9.1 Family settings

1) Drop down required for all families associated with the user. Default to the first one based on the association date.

Family name	Drop Down	Populate this with the names of families associated with an individual
Family ID	Static text	This will be the 10 digit number auto generated and assigned to the family.
New family name	Text Box	Pre-populate with 'helping text' of current family name.  Upon clicking this box, the text box will become empty.
Create date	Date	Static
Primary owner	Static text or Drop down	- Static text: for person who is not a primary owner. Display the primary owner name.  - Drop down for the primary user with all parents associated with the family. - On change, primary owner details to be changed accordingly.
Submit	Button	Will trigger the save process
Cancel	Button	Go back to the application

### 9.2 Email settings

- 1) A user is allowed up to two email IDs.
- 2) One of the email is the primary email, which is defaulted to the one used for account creation.
- 3) User can use both email IDs to login to the same account.
- 4) Primary email can't be deleted.

#### **Following details are required:**

Primary email	Radio button	To select the primary email ID of the user.  The radio button will be 'greyed out' if the email status is unverified.  This can't be deleted, so no delete sign against it.(no edit option).  Only one primary email is allowed.  Default is the one used to create the account.
Email	Static text or	Static text, once saved.

## Nuturey - Requirements Document

---

	Text Box	Text Box, when 'add new' is being clicked  A verification email will be sent. Till the email is verified, unverified test will appear alongside the email. It won't be a usable email ID until verified.
Status	Static text	'verified' or 'unverified' based on email verification.
Delete	Icon	This will be visible only against 'non-primary' emails.
Add	Button	Only two emails allowed. Hence, the button will be hidden (invisible) if 2 emails already exist.  It will be visible again, if any email is deleted.
Submit	Button	A verification email will be sent. Till the email is verified, unverified test will appear alongside the email. It won't be a usable email ID until verified.  Once the emails are verified, any email can be used for login.
Cancel	Button	

### 9.3 Change password

Message	Static text	This message will appear when password changed. M11
Old password	Text Box	
New Password	Text Box	
Confirm password	Text Box	
Submit	Button	Send the new password to the primary email ID.
Cancel	Button	

### 9.4 Subscriptions

#### Static text (no code)

### 9.6 Help

Static text (no code)

### 9.7 Log out

Log out and go to the login/ Registration screen.

## 10. Module-9: Pictures & documents

### 10.1 Profile pictures

Allow users to upload profile pictures, with basic movement of photo to focus on an area (like facebook).

### 10.2 Document upload

Allow users to upload documents to sections such as A&H, Medical reports etc.

### 10.3 Document and Picture section

#### 1) Medical reports

Title	Static text	Pick value from respective section
Description	Static text	Pick value from respective section
Upload date	Static text	Pick value from respective section
View	Link	Pick value from respective section
Add	Button	This will open up the pop-up from respective section

#### 2) School related

Title	Static text	Pick value from respective section
Description	Static text	Pick value from respective section
Upload date	Static text	Pick value from respective section
View	Link	Pick value from respective section
Add	Button	This will open up the pop-up from respective section

#### 3) A&H

Title	Static text	Pick value from respective section
Description	Static text	Pick value from respective section
Upload date	Static text	Pick value from respective section
View	Link	Pick value from respective section
Add	Button	This will open up the pop-up from respective section

#### 4) Other

Title	Static text	Pick value from respective section
Description	Static text	Pick value from respective section
Upload date	Static text	Pick value from respective section

## Nuturey - Requirements Document

---

View	Link	Pick value from respective section
Add	Button	This will open up the pop-up from respective section

### 10.4 Albums

Allow users to create albums and add pictures to it.

## 11. Timeline

Currently I am considering a timeline implementation of <http://timeline.verite.co/> module. Open to other ideas.

- All activities marked for timeline with following details to appear in timeline:

- a) Title
- b) Photograph
- c) Description
- d) Date

## 13. Parent Calendar

### 13.1 All views

1) Parent calendar will have same views Months/Week/Day. All look and feel etc will remain exactly the same.

2) However, parent calendar is for view only. It will see following elements:

- Anything marked for parent calendar, such as vaccination schedule.
- All the 'event' type activities in a child's calendar.

# Nuturey - Requirements Document

## 14. Appendix

### 14.1 General Messages

M01	"Username and Password combination you entered is incorrect"
M02	"An email has been sent to you with your new password."
M03	"Sorry, we are unable to process your request at the moment. Please try later."
M04	"An email has been sent to you r email ID for verification. Kindly login again after verification."
M05	"Email not identified".
M06	"An email has been sent to the primary owner of the family ID <ID>. You will become member of the family, once your request is approved."
M07	"All members and records will be deleted with the family. Do you want to delete the family?"
M08	"An email has been sent to <First Name> for approval. <First Name> will become a member of your family after the approval"
M09	"<First name> has been added to your family. Please see navigation bar of child dashboards."
M10	"You have been added to the family ID <Family ID>. Please login to your account to see details."
M11	"You password has been changed."
M12	"Please enter your email ID. We will send a new password to your email."

### 14.2 Error Messages

E01	"Only valid alphabets"
E02	"Email format incorrect"
E03	"Email IDs do not match".
E04	"Valid characters only"
E05	"Kindly read and agree to the terms".
E06	"Family ID must be a 10 digit number"
E07	"Family ID not found"
E08	"Select a role"
E09	"End date required"

### 14.3 Hover Pop-up Messages

P01	"Use the navigation bar to add/ modify family and member details. You must have at least one family to add members."
P02	

### 14.4 Access rules:

- All parents will have all access to all children within a family, i.e. they can create, modify, view any of the items.
- Parents will not be able to view each others' data, but can 't modify/ add any bit. Hence in the navigation bar, same options for other parents will appear as for a user himself. He can browse to other parents profile, calendar etc, but can't modify anything.

## Nuturey - Requirements Document

---

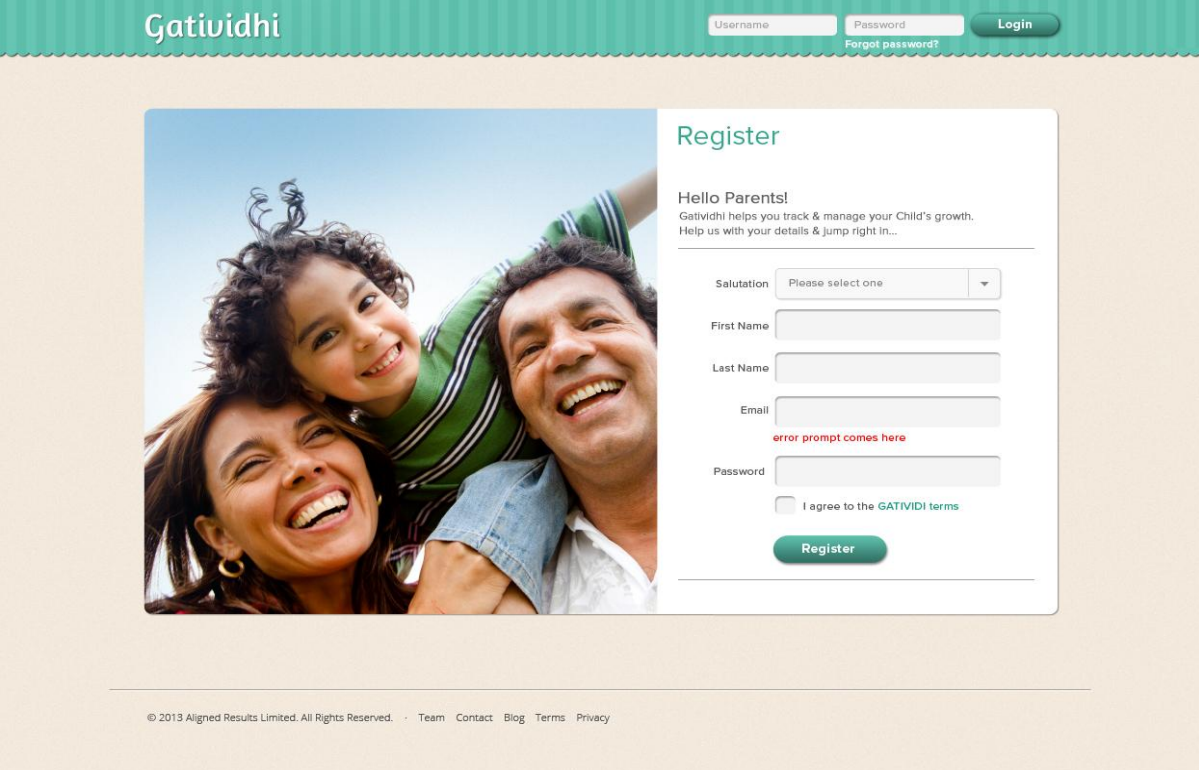

c) Parent calendar is independent of Child calendar. Only when a parents name is selected in a child activity, the activity/task will also appear in parent's calendar.

# Nuturey - Requirements Document

## 14.5 Screen samples/ descriptions

### 1 Login/ Sign up screen (the first screen)

The image shows the 'Gatividhi' Register screen. At the top, there is a green header with the 'Gatividhi' logo on the left and login fields for 'Username', 'Password', and a 'Login' button on the right. Below the header, the main content area is divided into two sections. On the left is a large photograph of a smiling family (a man, a woman, and a child). On the right is a white 'Register' form. The form includes a greeting 'Hello Parents!', a brief description of the service, and several input fields: 'Salutation' (a dropdown menu), 'First Name', 'Last Name', 'Email', and 'Password'. Below the 'Email' field, there is a red error prompt that says 'error prompt comes here'. At the bottom of the form, there is a checkbox for 'I agree to the GATIVIDI terms' and a green 'Register' button. At the very bottom of the page, there is a footer with copyright information and links for 'Team', 'Contact', 'Blog', 'Terms', and 'Privacy'.

### 2 When a wrong Username Password in entered.

The image shows a login screen with a blue border. At the top left, there is a blue oval button labeled 'Logo'. Below the logo, there is a large white rectangular area. Inside this area, there is a smaller white rectangular box. At the top of this box is a label 'Message space'. Below the message space, there are two input fields: 'User name:' and 'Password:'. Below the 'Password:' field, there is a 'Sign In' button. Below the 'Sign In' button, there is a checkbox labeled 'Remember me'. Below the checkbox, there is a link that says 'Forgot password?'. To the right of the 'Forgot password?' link, there is a link that says 'Sign up'.

## 3 Email verification has been sent from sign up

This wireframe represents a user interface for screen 3. It features a header bar with a 'Logo' button on the left and 'User name' and 'Password' input fields on the right. The main content area contains a large rectangular box. Inside this box is a smaller rectangular box with the text: **Message space (Message to login after email verification)**.

## 4 Email verification has been sent from sign up

This wireframe represents a user interface for screen 4. It features a header bar with a 'Logo' button on the left and 'User name' and 'Password' input fields on the right. The main content area contains a large rectangular box. Inside this box is a smaller rectangular box with the text: **Message space (Message that new password sent to the email ID). Hide the section below when email sent message is shown.** Below this text box, the label 'Email:' is followed by a text input field. Below the input field is a 'Send Password' button.

## 5. T&C page (opened in separate tab)

The wireframe illustrates the layout of the T&C page. It features a header bar at the top containing a 'Logo' on the left and 'User name' and 'Password' fields on the right. The main content area is a large rectangle with a smaller rectangle inside it, labeled 'T&C message'.
